# Video: MeasurLink® Real-Time Software–Data Management System from Mitutoyo

## Brought To You by Mitutoyo | Feb 03, 2020

Manufacturing companies across every industry want to improve the quality of their products while keeping their operating costs low. Mitutoyo's MeasurLink® is the ideal software to assist companies with achieving these goals.

As a data collection and statistical process control software, manufacturers have used MeasurLink to improve product quality, data collection, prevent nonconformities and reduce inspection time and costs for over 20 years. Watch the short video above to learn more.
