VIDEO: Eco Best Technology® by SHOWA

Brought To You by SHOWA | Feb 07, 2020

Video Highlights

SHOWA's revolutionary Eco Best Technology® (EBT) makes a difference to the environment, without any compromise in protection and performance. Their biodegradable nitrile gloves are the industry's first, and today, SHOWA offers the most extensive selection of biodegradable hand protection in the market.

- Every year 100 billion disposable gloves are thrown away after having protected your hands in a variety of tasks and applications.
- EBT gloves decompose within 1 to 5 years in active landfills where for non-EBT products this takes more than 100 years.
