Video: EXOPRO® XPF: Form Taps for Materials up to 40 HRC

Brought To You by OSG | Jun 01, 2020

Video Highlights

The EXOPRO® XPF represents a new evolution in forming tap technology. These form taps generate up to 50% less torque versus other forming taps, making it feasible to tap materials up to 40 HRC and sizes up to or exceeding 1" in diameter. See a *demonstration in the short video above (music only, no transcript)*.
