Video: A Brand AE-VMS: The New Standard for High Efficiency Milling

Brought to You by OSG | Sep 15, 2020

The A Brand® represents a new evolution in cutting tool technology. With a commitment to only the best, the A Brand emanates innovations essential for shaping the future of global manufacturing. The A Brand is not only a premium tooling brand, it also represents the quality assurance OSG guarantees to each and every customer. The A Brand is composed of OSG's latest high-performance threading, drilling and milling tool innovations.

The A Brand® AE-VMS is an advanced performance anti-vibration carbide end mill. It features:

- **Positive Rake Angle** for reduced cutting force
- **High Rigidity** to improve milling accuracy
- **New Flute Form** for excellent chip evacuation
- **Duarise Coating** to minimize thermal cracks
- **Variable Leads** to enable high-efficiency milling

Watch the short video above to see if OSG's new A Brand AE-VMS is right for your application.
