WINTER
IS COMING

UNDERSTANDING AND REDUCING SLIPS AND FALLS IS AS EASY AS 1-2-3

1 The Clear Facts

#1

Cause of worker's
compensation claims

More than 20,460 reported ice, sleet and snow related worker injuries in 2017 making up the majority of claims

- US Bureau of Labor Statistics

20.8%

of Emergency Visits

20.8% of emergency room visits and hospitalizations in the United States are due to slips and falls

- EHS Today, "The High Cost of Slips, Trips and Falls"

31

Days of Work Loss

25% of slips and falls result in more than 31 days away from work

- National Floor Safety Institute

2 The Opportunity

Construction

Oil & Gas

Manufacturing

Mining

Railroad

Transportation

Work with EHS professionals to address the issue of slips & falls and develop ice cleat policy that includes equipping everyone on-site with easy-to-use winter traction aids.

Growing Industry

- As more EHS professionals become aware of the available solutions, we are seeing more companies implement ice cleat policy
- Companies are mandating ice cleats for all employees, including ones that don't necessarily work outside (i.e. office employees in the parking lot)

The Numbers Add Up

- Average cost of an ice-related slip & fall worker's compensation claim is \$48,000, according to the Maine Department of Labor
- At less than \$40 per pair, a company can outfit 1,200 employees with a pair of ice cleats and save money if just one accident is prevented

3 The Product Solution
