VIDEO: Creating a Safer Workplace with Brady

Brought To You by Brady Corp. | Jan 26, 2021

Anthony Testa, Strategy Leader Category Management – Safety & MRO at MSC Industrial Supply, speaks with Senior Manager of Brady Corporation, Courtney Bohman, about the procedures and safety assessments they provide their customers.

From lockout-tagout procedure writing to arc flash assessments, Courtney details how Brady's team of engineers and technicians help you write your own playbook of safety protocols that are both compliant with OSHA standards and fit your unique business needs.

Courtney also emphasizes the benefits of visual procedure writing as well as the time commitment necessary to produce a sweeping, detailed assessment of your operations that will keep employees safe and potentially save someone's life.

To learn more about how Brady can help you create a safer workplace, explore Brady's products here.
