VIDEO: DataSure 4.0 Data Collection System

Brought To You by Starrett | Jul 01, 2021

With unprecedented range, scalability and data security, multiple gateways, compact size and high speed, DataSure 4.0 has taken data collection to a new level. The new Starrett DataSure 4.0 System operates on the latest wireless networking technology that uses short-wave radio frequencies to interconnect cell phones, computers and wireless electronic devices, enabling much faster speed, greater bandwidth and longer range for higher data throughput. Learn more about DataSure 4.0 in the short video above.
