VIDEO: Introducing 3M™ Cubitron™ II Fibre Disc 982CX Pro and 3M™ Power Tools

Brought To You by 3M Abrasives | Aug 03, 2021

How do the best get better? Introducing the **3M™ Cubitron™ II Fibre Disc 982CX Pro**. With newly re-engineered 3M Precision-Shaped Grain, this disc features a 33% faster cut and removes 31% more material. That means you and your team can do more work with fewer discs, saving you time and money. It's designed to help reduce operator fatigue, and when paired with our new tools and accessories, this full system gives you more power than ever before. It's performance, power and productivity optimized making your best work even better.
