VIDEO: TOOLING UP – Increasing Productivity with Kennametal Tangential Milling Cutters

Brought To You by Kennametal | Aug 13, 2021

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

Through Tooling Up, you'll gain access to our knowledgeable in-house specialists and experts from our most-trusted partners and suppliers, along with some exclusive innovative offerings from MSC. From metalworking and MRO supplies, services, and expertise to inventory management solutions, and to the safety and well-being of your team, we are dedicated to working side by side with you to make your operations better.

Explore more Tooling Up videos here.

In this episode of MSC's Tooling Up Eddie Saunders Jr., MSC Expert Host, is joined by Tony McClain, Regional Product Manager, Indexable Milling at Kennametal for a real-time discussion around the many benefits of tangentially mounted milling cutters and how they can help manufacturing shops find efficiencies and increase productivity.

They'll cover important topics including:

- The pros of leveraging Tangential Milling Cutters
- The differences between Tangentially Mounted and Radially Mounted Inserts
- How the Kennametal MILL 4-12KT compares vs. other carbide cutters on the market
- Best applications for the MILL 4-12KT Cutter
