VIDEO: 3M Cubitron II Fibre Disc 982CX Pro Demo

Brought To You by 3M Abrasives | Dec 21, 2021

The new **3M™ Cubitron™ II Fibre Disc 982CX Pro** has everything you need to make your best work even better. With re-engineered 3M Precision-Shaped Grain, the disc can cut 33 percent faster and remove 31 percent more material than the original 3M™ Cubitron™ II Fibre Disc 982C. Plus, its consistent and sustained cut-rate makes it ideal not only for offhand applications but also for robotic and other automated operations. The 3M™ Cubitron™ II Fibre Disc 982CX Pro is designed to further optimize performance when used as a complete system including tools and accessories.
