VIDEO: TOOLING UP – Mitutoyo Provides High-Accuracy Measurements, Right On The Shop Floor

Brought To You by Mitutoyo | May 02, 2022

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

Through Tooling Up, you'll gain access to our knowledgeable in-house specialists and experts from our most-trusted partners and suppliers, along with some exclusive innovative offerings from MSC. From metalworking and MRO supplies, services, and expertise to inventory management solutions, and to the safety and well-being of your team, we are dedicated to working side by side with you to make your operations better.

Explore more Tooling Up videos [here](#).

In this episode of MSC's Tooling Up Eddie Saunders Jr., MSC Expert Host, is joined by Patrick Sullivan, Strategic Sales Representative at Mitutoyo for a real-time discussion around how specialty measuring tools can provide high accuracy when measuring even the most unique parts, right on the shop floor.

They'll cover important topics including:

- Overview of various Mitutoyo specialty hand tools
- The benefits of using different hand tools on unique parts
- High-accuracy measurements using height gages
