

Machining

VIDEO: The 3 Keys to Manufacturing Success with Mitch Free, ZYCI CNC Machining

Brought To You by Mitch Free | May 26, 2022

Video Highlights

Mitch Free, a serial entrepreneur and founder of Mfg.com, Fast Radius and ZYCI CNC Machining, shares insights into how custom manufacturers and OEMs can differentiate their businesses.

Mitch explains how these three advantages can help industrials set themselves apart:

- Service
- Creativity
- Partners

Mitch Free is a serial entrepreneur and manufacturing industry expert. He currently serves as the founder and CEO of ZYCI. Mitch began his career as a CNC machinist and worked in the aerospace and automotive sectors producing some of the most complex parts and assemblies. After working in job shops for seven years, Northwest Airlines recruited him to develop methods to rapidly reverse engineer and produce aircraft parts when they could not be quickly obtained from the OEM or surplus market. While at the airline, he was awarded multiple patents for technologies he created for inspection and repair of jet engine components.
