VIDEO: TOOLING UP – Faster Cuts, Longer Blade Life, and Increased Productivity with Lenox

Brought To You by Lenox Tools and Technology | May 27, 2022

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

Through Tooling Up, you'll gain access to our knowledgeable in-house specialists and experts from our most-trusted partners and suppliers, along with some exclusive innovative offerings from MSC. From metalworking and MRO supplies, services, and expertise to inventory management solutions, and to the safety and well-being of your team, we are dedicated to working side by side with you to make your operations better.

Explore more Tooling Up videos here.

In this episode of MSC's Tooling Up Eddie Saunders Jr., MSC Expert Host, is joined by Kevin O'Keefe, Sr. Engineering Manager for Carbide R&D at Lenox for a real-time discussion around innovative bandsaw blade products that allow end users to cut faster, cut longer, be more efficient, and increase productivity.

They'll cover an in-depth overview of some of their solutions including:

- Lenox® Armor® Versa Pro™—designed to perform at extreme cutting rates
- Lenox® GEN-TECH™—designed to be versatile for general-purpose cutting at an affordable price point
- Lenox® AeroMax™ Cutting Fluid to help prolong blade life
