

Worker Safety

VIDEO: TOOLING UP – How Proper Lockout Procedures & Audits Benefit Workers

Brought To You by Master Lock | Jun 15, 2022

Video Highlights

Tooling Up is a video series by MSC Industrial Supply Company that provides real-world insights brought to you by leading industry experts and aimed at improving the efficiency and productivity of your operations.

Through Tooling Up, you'll gain access to our knowledgeable in-house specialists and experts from our most-trusted partners and suppliers, along with some exclusive innovative offerings from MSC. From metalworking and MRO supplies, services, and expertise, to inventory management solutions, and to the safety and well-being of your team, we are dedicated to working side-by-side with you to make your operations better.

Explore more Tooling Up videos here.

In this episode of MSC's Tooling Up Eddie Saunders Jr., MSC Expert Host, is joined by Bill Belongea, Safety Services Program Manager at Master Lock for a real-time discussion around how important it is to implement the proper lockout procedures, training and audits to keep workers safely on the job.

They'll cover important insights including:

- The importance of proper lockout procedures and training
- The difference between OSHA 1910.147 and ANSI Z244
- Authorized vs. Affected employees
