

Worker Safety

VIDEO: KleenGuard™ Maverick™ Safety Glasses

Brought To You by Kimberly-Clark Professional | Oct 03, 2022

Don't underestimate the power of style. Your workers need protection, but they also care how they look. Maverick™ Eye Protection delivers confident protection without compromising style or comfort.

Video Highlights:

- Over 20,000 eye injuries happen on the job each year, costing U.S. businesses nearly \$300 million in lost production time, medical expenses and worker compensation
- Workers may be exposed to particles like dust and debris, yet eye protection is often a low priority for those who need it the most
- New Maverick™ Safety Glasses from the KleenGuard™ brand feature improved premium anti-fog and anti-scratch performance to increase safety and efficiency
- The lenses provide 99.9 percent protection from UV-A, UV-B and UV-C rays
- 90 percent of workplace eye injuries can be prevented with proper safety eyewear

Learn more about Maverick™ eye protection in the short video above.
