VIDEO: Small Weld Grinding with Scotch-Brite™ Precision Surface Conditioning Discs

Brought To You by 3M Abrasives | Dec 13, 2022

Check out the new Scotch-Brite™ Precision Surface Conditioning Discs in action. In this video, 3M showcases a grinding application on small stainless steel corner welds to show how you can reduce steps in your process. This video showcases a burr-free finish starting with a 3M™ Fibre Disc, 787C 120+ grit to remove the weld and then follow up with the new Scotch-Brite™ Precision Surface Conditioning Disc, Coarse Grade and Scotch-Brite™ Light Grinding and Blending Disc, Super-Duty to refine and finish the work piece. Find your solution at **3M**.
