VIDEO: TOOLING UP – Chain Hoists with a Twist

Brought To You by Columbus McKinnon | Dec 07, 2022

Video Highlights

In this episode of MSC's Tooling Up, Mitch Free is joined by Paul Smielecki, Columbus McKinnon's Senior Manager for a discussion on Hurricane 360. Columbus McKinnon has always been on the forefront of manual and electric chain hoist innovation. With Hurricane 360 and Hurricane Mini, Columbus McKinnon yet again established themselves as pioneers on the shop floor, and wherever chain hoists are used around the world. This new line of CM products revolutionizes the way operators can more effectively use chain hoists from any angle, even above the hoist itself; all while remaining safe and in control of even the heaviest loads. Paul dives deep into the development of the Hurricane product line, and how at Columbus McKinnon they've iterated on this trusted line of products for over the last decade.
