VIDEO: Introducing the All-New KenTIP™ FS GTP Insert Featuring GOdrill™ Point Design

Brought To You by Kennametal | Oct 02, 2023

Video Highlights

Kennametal introduces the KenTIP FS GTP insert with the GOdrill point design. The GOtip is the only insert in the KenTIP FS platform built for multi-material drilling. The new insert is ideal for customers looking for one tool to run in multiple workpieces when drilling medium and large hole diameters. *Watch the short video above to learn more (music only, no transcript).*
