VIDEO: Streamlight ProTac® 2.0 Series

Brought To You by Streamlight | Apr 05, 2023

When you need blazing brightness without sacrificing run time, Streamlight's new rechargeable ProTac® 2.0 Series has a lot to offer. Whether it's hand-held, hands-free, or weapon-mounted, you'll get 2,000 lumens from these USB rechargeable lights. All are powered by Streamlight's SL-B50® USB Li-Ion battery pack that charges via USB-C cord inside or outside of the light. With TEN-TAP® programming, multiple lighting modes, and run times of up to 25 hours, Streamlight has you covered. Learn about all its features in the short video above (*music only, no transcript*).
