VIDEO: H-Carb Series-77 High Performance End Mills

Brought To You by KYOCERA SGS Precision Tools | Apr 03, 2023

The new H-Carb 7 flute, high-efficiency end mill from SGS specializes in deep axial trochoidal and high-speed machining applications offered at various lengths of cut. The specialized core and flute design improves rigidity and chip flow while reducing deflection. The 7 flute design allows for superior finishes at higher speed and feed rates versus 5 and 6 flute tools. Watch it in action in the short video above (*music only, no transcript*).
