VIDEO: Mahr Millimes 2001 W Dial Comparators with Inductive Measuring System and Touch Operation

Brought To You by Mahr | Aug 22, 2023

With these new dial comparators, Mahr has succeeded in combining practical and reliable operation with maximum precision. Due to linearization, the unique inductive measuring system provides more precise measurement than ever before – regardless of whether static or dynamic measuring tasks are involved. Thanks to the wide range of new functions, you will experience maximum measurement reliability even in the harsh working environment of the workshop. Take a look at their **innovative dial comparators** and learn more in the short video above.
