

Personal Protective Equipment

VIDEO: TOOLING UP – PPE: Safety Gloves for Every Task

Brought To You by Milwaukee Tool | Aug 11, 2023

Video Highlights

In this episode of MSC's Tooling Up, Toni Neary is joined by Austin Dorman, PPE Product Manager at Milwaukee Tool for a discussion on their lineup of High Dexterity Gloves.

The two take a deep dive into Milwaukee's High Dexterity Glove PPE line, and their wide variety of cut protection offered in this lineup. Milwaukee offers lightweight solutions for high precision tasks that require a high level of dexterity and tactile feedback, such as electrical work and handling small fasteners – all the way to rugged, high cut resistant, nitrile dipped gloves fit to handle the toughest jobs.

They also discuss the main reasons for investing in high-quality PPE for your people, the safety benefits, and the advantage of using high-quality gear that will last much longer than their cheaply made competitors' products. Not sure about which cut level is right for you? No problem. Austin delves into the benefits of speaking to one of many of Milwaukee's PPE specialists, who can properly assess the right safety solution for you.
