VIDEO: TOOLING UP: High Performance Tooling for Every Job

| Apr 12, 2024

Video Highlights

In this episode of Tooling Up, we dive into the world of Multi-Carb tooling solutions with Jason Wells, VP of Product Innovation for Kyocera SGS Group. Jason shares insights into his career journey, highlighting his experiences and the evolution of Kyocera SGS through various phases. He discusses the company's emphasis on research and development, showcasing their commitment to staying relevant and innovative in the industry.

Discover the advantages of Multi-Carb tools and how they have been developed for specific machining needs, particularly in industries dealing with challenging materials like high-temperature alloys such as Inconels, super-alloys, and titaniums. Jason elaborates on the intricacies of high-speed machining and the role of Multi-Carb tools in enhancing productivity and efficiency. Moreover, Jason sheds light on their comprehensive training programs offered, including hands-on training, onsite support for customers, and the expertise of their application and sales engineers in the field.

Join us for an engaging conversation that explores the cutting-edge advancements in tooling solutions and how they are driving innovation and productivity in the manufacturing sector. Don't miss out on this insightful episode of Tooling Up, and remember to subscribe for more industry-leading discussions.
