VIDEO: Weiler SPOT Safety: Wire Brushes

Brought To You by Weiler Abrasives | May 06, 2025

The Weiler Abrasives SPOT Safety video series promotes the safe and proper use of abrasives and wire brushes. This video covers the safe use of power wire brushes. These abrasives are essential for metal fabrication and are often used in foundries, pipelines, and shipbuilding. When misused, they can be dangerous to the operator, coworkers, and equipment. Here Weiler shows you how to select the correct product and use it properly for the job at hand.
