

Regulatory Compliance

Are Your Ladder Systems Compliant with OSHA 1910.28?

Brought To You by PIP Global Safety | Sep 02, 2025

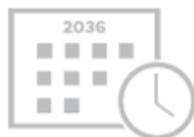

QUICK OSHA 1910.28 OVERVIEW

Each existing fixed ladder over 24 ft, even if already equipped with a cage or well, should be equipped with a personal fall arrest system or ladder safety system by 2036.

OSHA 1910.28

OSHA standards requires employers to provide protection for each employee exposed to fall and falling object hazards.

EXISTING FIXED LADDERS

Each existing fixed ladder over 24ft, even if already equipped with a cage or well, should be equipped with a personal fall arrest system or ladder safety system by 2036.

NEW FIXED LADDERS

Each new (or replacement) fixed ladder over 24ft should be equipped with a personal fall arrest system or ladder safety system.

Browse the OSHA 1910.28 Quick Guide to learn more.

MILLER VI-GO VERTICAL CABLE SYSTEM

Miller Vi-Go Ladder Safety System provides the ultimate in safety with continuous fall protection when climbing fixed ladders: remarkably ergonomic and versatile vertical steel rope system with integrated fall protection.

See it in action in this short video:

Don't wait until it's too late. Achieve OSHA compliance with Miller Fall Protection.
