

Regulatory Compliance

How OSHA Violations Add Up: What to Watch Out for in 2018

Don Sears | Dec 21, 2017

Safety directors: Worried about OSHA violations and fines? Here's where you need to give your attention this year.

Compliance is complicated, especially when it comes to safety in manufacturing and the Occupational Safety and Health Administration. Compliance has many parts: It's one part federal (and state) government standards, rules and interpretation mixed with another part—worker training and investment in protective equipment. If that wasn't enough, there is even another part: the potential for violations and fines.

No one wants to see their employees injured on the job or exposed to dangerous substances that can permanently damage their lives. As part of a sustained effort to help improve the safety of workers and raise awareness of the cost of noncompliance with the law, OSHA ***publishes a list*** of the major violations every year.

Dive in to this infographic to better understand the six areas that affect manufacturing and general industry the most. A better understanding of OSHA's violation emphasis may help you tailor your safety program in the right places for your business and your workers. But remember: A narrow focus on the list is not a complete approach. There is so much work needed to help create and nurture ***safety culture***.

Want to dive deeper into all of the individual areas on the OSHA Top 10 list? ***See*** the graphic below.

How OSHA Violations Add Up

What to Watch Out for in 2018

When it comes to “OSHA’s Top 10 Violations for 2017,” manufacturers will want to focus in on these six. We offer tips to keep your workers safe and reduce your penalty risk.

1

Fall Protection

STANDARD: 1926.501 / OSHA LIST RANK: #1

2017 violations
6,072

Average penalty
\$3,286

At this year’s rates
\$5,948

Total 2015 fines
\$24 Million

2

Hazard Communication

STANDARD: 1910.1200 / OSHA LIST RANK: #2

2017 Violations:
4,176

Total 2015 fines:
\$3.4 Million

At this year’s rates:
\$1,068

Average penalty
\$590

3

Respiratory Protection

STANDARD: 1910.134 / OSHA LIST RANK: #4

2017 violations
3,097

Average penalty
\$745

At this year’s rates
\$1,348

Total 2015 fines
\$2.7 Million

4

Lockout / Tagout

STANDARD: 1910.147 / OSHA LIST RANK: #5

2015 fines
\$9.5 Million

Average penalty
\$2,851

At this year’s rates
\$5,160

2017 violations
2,877

5

Machine Guarding

STANDARD: 1910.212 / OSHA LIST RANK: #6

2017 violations
1,933

Average penalty
\$3,757

At this year’s rates
\$6,800

Total 2015 fines
\$9.8 Million

6

Fall Protection Training Requirements

STANDARD: 1926.503 / OSHA LIST RANK: #9

Cost:
Unknown
because first year
on the list

2017 violations
1,523

The Price of Violations

A Steep Rise of 81% in 2017

Serious & Other-than-Serious

\$12,675
Up from \$7,000
per violation
