Eye Protection Basics

Brought To You by PRO-SAFE | Sep 01, 2021

Set Your Sights on Eye Safety

In countless applications, safety glasses and goggles protect your eyes from impact, debris, dust, splash, light and other hazards. When selecting eye protection, your choice should be based on fit, features and frame style.

Fit

Ensure comfort and the best defense against hazards by choosing eye protection designed for the shape of your face.

Features

Lens coatings, tints and technologies can reduce reflection and glare, alleviate eye strain, provide 99.9% UV light filtration and enhance outdoor vision.

Frame

No matter what application they are used for, all of PRO-SAFE's frame styles offer the best in both comfort and coverage.

RIMLESS

SEMI-RIMLESS
