

Safety

Advantages of Cordless vs. Corded/Pneumatic in the Facility

Brought To You by Milwaukee | Aug 07, 2018

DID YOU KNOW THAT SLIP, TRIP AND FALL INCIDENTS:

- Represent 15% of all accidental deaths, the second leading cause behind motor vehicles (according to OSHA)
- Could cost an average of \$20,000 per case
- Negatively affects the employers by increasing industrial insurance premiums, costs associated with training replacement worker, and overall loss of productivity and business

DID YOU KNOW THAT ELECTROCUTION INCIDENTS:

- Represent 5% of all occupational deaths and are the third leading cause of private sector deaths in the construction industry (according to OSHA)
- May be reduced if proper protocol is practiced. In order to reduce the risks of contacting electrical current, you must learn to recognize and identify electrical hazards. Once a hazard has been identified, it must be corrected.
- Common electrical hazards include improper grounding, exposed electrical parts, inadequate wiring, damaged insulation, overloaded circuits, damaged tools and equipment.

FACTORS DRIVING CORDLESS ADOPTION:

- No wasted time searching for temporary power
- Gas and emissions limit indoor use for generators
- Routine maintenance required
- Shared by all trades – further limiting availability
- Extension cords – restricted mobility, trip hazards, poor condition can create shock hazard, long cords decrease tool power output and performance
- Battery platform compatibility with many different solutions
- Cost savings

MILWAUKEE® CORDLESS SOLUTIONS

M18™ ADVANTAGE

COST SAVINGS

CORDED & PNEUMATIC COMMON USER FRUSTRATION

M18 FUEL

CORDS / HOSES	Restricted Mobility Safety Hazard Potential Work Surface Damage	<ul style="list-style-type: none"> ✓ More Powerful than Pneumatic / Cordless & Corded Wrenches
GENERATORS / COMPRESSORS	Routine Maintenance Loud Noise Output	<ul style="list-style-type: none"> ✓ No Hoses / Cords ✓ Maintenance Free
TOOLS	Daily / Weekly Maintenance Loud Noise Output Mobility Restricted by Hose Length	<ul style="list-style-type: none"> ✓ Reduced Noise Output ✓ M12™ / M18™ Multi-Voltage Charger
COST (\$)	Overall Setup Cost (tools, compressor, hoses, fittings) Service Cost Fuel / Electric Cost to Operate Tools Average Warranty: 1-2 Years	<ul style="list-style-type: none"> ✓ Lower Cost of Ownership ✓ 5-Year Tool Warranty ✓ 3-Year (XC) Battery Warranty
COMPATIBILITY	Different Tools Require Different Adaptor / Hose Sizes	<ul style="list-style-type: none"> ✓ Battery Pack is Compatible with OVER 150 M18™ TOOLS
