

WORKPLACE INJURIES ARE STILL A BIG PROBLEM

In 2015, there were approximately 2.9 million nonfatal workplace injuries and illnesses such as burns, lacerations, cuts and fractures as well as latex and chemical allergies reported by private industry employers in the US.1 The previous year in the EU-28 zone, there were close to 3.2 million nonfatal accidents.2

Beside severe effects on the individual, all types of injuries can also represent particularly serious drawbacks for a company's business performance. The associated direct costs of an injury range from medical expenses to rehabilitation costs and workers' compensation, whereas indirect costs are caused by replacement workers, accident investigation, productivity loss and demotivation of workers.

An addition, global and local trends have an impact on your company's economic performance. These trends are:

- · Increased health and safety standards and regulations
- · Increased focus on sustainability and waste reduction
- · Vendor standardization and consolidation
- · Global standardization in supplies and processes

The resulting demands for compliance, consolidation and simplification necessitate rapid changes and are forcing companies to find new ways to reduce PPE costs without sacrificing worker safety.

AN INTEGRATED APPROACH TO IMPROVE YOUR BUSINESS PERFORMANCE

Ansell GUARDIAN® is our proprietary service to help companies select the right personal protective equipment solution and improve their safety and business performance.

As an industry pioneer with the most advanced and proprietary technology and analytics, we have gained our experience in more than 15,000 assessments and more than 20,000 chemical assessments conducted since 2010, operating in more than 55 countries globally.

To help companies find the right PPE solutions for different chemical environments, we keep a database with over 25,000 chemicals at your disposal.

Since July 2014, our recommendations have resulted in injury reductions on an average of 65%, customers have decreased product styles by an average of 25%, and we have saved companies a total of \$148 million, a \$65,000 average.
