for our entire eco-friendly offering

To request our Big Book® or for additional information on any of the products and solutions listed in this guide, please call **800.645.7270** or your local branch to speak with an MSC Representative.

energy conservation tips:

Change out standard magnetic ballasts with **Advance** Optanium® high-performance electronic ballasts for up to 40% energy savings.

PHILIPS

A simple change from 40W T12 (4') lamps to energy-efficient 32W T8 **Philips** Alto II lamps can save you up to 8 watts per lamp.

For additional energy savings, upgrade from your 32W T8 lamps to **Philips** 25W T8 Energy Advantage lamps and save up to an additional 7 watts per lamp.

LEVITON

Replace manual light switches with **Leviton** occupancy wall light switch sensors.

Haier

Utilize Energy Star rated products like A/C units from **Haier**.

When general-purpose, HVAC or elevator motors need replacing, upgrade to **Emerson** NEMA Premium energy-efficient models.

MSC stocks thousands of products that last longer and help you conserve energy, resulting in a more efficiently run facility. With just a few simple changes, your school can reduce its daily energy consumption, cut back on maintenance spend and reduce its overall operating cost.

find out more - Visit mscdirect.com/eco-friendly.htm for more products that can help you begin conserving energy today.

energy conservation

water conservation tips:**SLOAN®**

Reduce water used in toilet flushing – convert existing manual flush valves on all toilets to **Sloan®** battery-powered infrared sensor retrofit flushometers for instant water savings.

Replace standard urinals with **Sloan** water-free urinals to reduce water and sewer costs, and create more hygienic, odor-free restrooms.

CHICAGO FAUCETS

a Geberit company

Replace manual on/off lavatory faucets with products like **Chicago Faucets HyTronic™** sensor-operated faucets that control water flow and operation time.

SPEAKMAN®

Install **Speakman** shower heads with water-conserving, pressure-compensating Autoflo® devices that reduce water flow to 2.5 GPM max. in all bathing areas.

**Halsey Taylor.**
Satisfying Thirsts Since 1912.

When current water coolers wear, replace them with water-saving models such as **Halsey Taylor** ADA water coolers with automatic actuation.

MSC carries a host of plumbing supplies and products that promote water conservation and also improve hygiene. Upgrading to the products shown here throughout your facility can translate into real cost savings and help you achieve your sustainability goals.

find out more - Visit mscdirect.com/eco-friendly.htm for more products that aid in water conservation.

**water
conservation**

recycling/ waste reduction tips:

Place recycling containers next to wastepaper baskets in classrooms, computer labs and libraries to promote regular recycling. Utilize products like **Rubbermaid** recycling containers containing 30% post-consumer resin.

Supply your school with recycled maintenance products such as **Pro-Source**™ can liners manufactured from 75% recycled plastic and 10% post-consumer content.

Divert excess waste from entering landfills – keep recycling kits for fluorescent lamps and ballasts handy. Products such as **Recycle Pak** prepaid shipping containers also help you reduce the risk of contamination at your facility.

Use bathroom tissue that lasts up to 75% longer and has no core to discard, such as **Kleenex**® Cottonelle coreless roll tissue.

Switching from M-fold towels to paper towel rolls such as **Scott**® hard roll towels can reduce packaging waste up to 45.8%.*

* Study completed by Kimberly Clark – based on 1,000 cases/year of model #01000 vs. model #01804

recycling/waste reduction

MSC can assist your school in supporting environmental sustainability by providing recyclable products and solutions as well as products manufactured from post-consumer content. We also carry many products that require less packaging, and in turn, reduce waste. When recycled properly, these products are kept out of landfills, which conserves natural resources, resulting in less of an impact on the environment.

find out more - Visit mscdirect.com/eco-friendly.htm for more recycled, recyclable products and solutions.

recycling/waste reduction

green cleaning/ maintenance tips:

Natures Solution™

Switch from standard cleaning products to eco-friendly products, such as MSC's exclusive **Natures Solution™** all-purpose cleaners that are non-toxic and safer to handle and store.

simplegreen®

Switch from standard cleaner/degreasers to non-hazardous products like **Simple Green** crystal cleaner/degreaser.

Maintain your facility and grounds with products that are safer for the environment, such as **Rochester Midland** cleaners and vandal mark removers.

While maintaining your building, be sure to utilize safe products that are Greenhouse Gas Free (do not contain global warming agents), such as **Krylon®** Industrial Eco-Guard™ spray paints.

Keep pests off school grounds without harming the health of students/faculty – utilize eco-friendly sprays from **Eco-Smart Technologies**.

MSC supplies hundreds of GREEN cleaning products that contain non-toxic, biodegradable ingredients that make them eco-friendly. Not only do these products help create a better environment for tomorrow, but they also promote a safe and healthy learning environment for your students and faculty today. These eco-friendly products can be handled and stored worry-free, keeping your cleaning and maintenance staff safe.

find out more - Visit mscdirect.com/eco-friendly.htm for more GREEN cleaning/janitorial and maintenance products and solutions.

green cleaning/ maintenance

health & hygiene tips:

Prevent the spread of germs by installing antibacterial dispensing products such as the **Purell TFX™** touch-free system in athletic areas, washrooms, cafeterias and classrooms.

Keep soap dispensers filled with products such as **Stoko®** Estesol Gold. This antimicrobial hand soap contains 1% triclosan that kills germs on contact.

Promote excellent hygiene and reduce waste with the help of “touch-free” products like **Kimberly-Clark In-Sight®** towel dispensers.

Install seat cover dispensers such as **Scott®** personal seat covers in all washroom stalls.

Utilize **Made in USA** high-efficiency Merv 11 pleated air filters. These models improve air quality and last longer between changes.

MSC offers thousands of Janitorial and HVAC products that can assist you in creating a healthy and hygienic learning environment. A few simple changes throughout your school can help you minimize the spread of germs that can cause illnesses. While these products can help keep your students and faculty healthy, many of them may also assist in waste reduction, reduce maintenance costs and increase overall operating efficiency.

find out more - Visit our Janitorial and HVAC sections on mscdirect.com for more products and solutions that help promote a healthy and hygienic campus.

 **health
& hygiene**

safety & security tips:

In case of a power outage, install **National Marker** glow-in-the-dark exit signs and **Glo Brite®** safety signs in hallways and classrooms.

Be prepared for any emergency – keep products like **Zoll** AED devices and **North** first aid kits in strategically located areas.

Equip security personnel/campus police with must-have safety devices like **Motorola®** two-way radios and **Energizer** flashlights.

Keep students/faculty safe by installing eye wash stations in laboratories, classrooms or any area with hazard potential.

Keep unwanted guests out of restricted areas by placing products such as **Master Lock®** high-security padlocks on doors and gates and installing **Leviton** outdoor motion sensor lighting in dark areas and building entryways.

MSC has an extensive offering of over 11,000 safety products from more than 100 top brands to help you create a safe and secure learning environment. Our broad product offering covers everything from personal safety and protection to emergency preparedness and communication products. We also partner with some of the industry's top suppliers to provide training and solutions to help your staff get the most out of your safety products and procedures.

find out more - Visit the Safety section on mscdirect.com for all of our safety products and solutions.

 **safety
& security**

being “**green**” means more
than buying green products...

...it also means reducing waste.

MSC can help you streamline your procurement process by cutting out the waste:

- Wasted time
- Wasted space
- Wasted natural resources

find out more - Visit the Solutions section on mscdirect.com for even more information to help you cut waste and streamline your procurement process.

the MSC difference

- **One Call Does It All:** Our “one-stop shopping” experience saves you valuable time and money. Call one number, 800-645-7270, to place an order, obtain product/technical information, check on a shipment, open an account, or discuss a return.
- **99%* Fill Rate:** Why put up with back orders or tie up cash and valuable space with expensive “just-in-case” inventory? MSC carries it so you don’t have to.
- **Get it Next Day!* - at no additional cost!*** Order by 8 PM ET – you’ll get your order the very Next Day* from any of our customer fulfillment centers to anywhere in the contiguous U.S.! MSC is the only industrial distributor with the unique distinction of being able to reach every zip code next day with no charge for the upgrade.
- **Personalized Local Sales Support:** With over 90 branches** coast to coast, our dedicated sales associates will work with you to understand your business needs. They’re ready and eager to help you. Just give us a call. See the Big Book® or mscdirect.com for local branch listing and phone numbers.
- **Technical & Non-Catalog Items Support:** You never have to wait for an answer. Have a question or need more information about a product you are looking for? Call 800-645-7270 or your local MSC branch**! MSC’s seasoned, knowledgeable professionals are dedicated to assisting you with answers, product advice and technical tips.
- **MSC State & Education Contracts:** MSC Industrial Supply Co. has been awarded numerous contracts ranging from specific product awards and commodity contracts to full catalog agreements/contracts. We are committed to support these contracts by providing tailored solutions by our local sales team to meet your institution’s needs. Visit mscdirect.com and click the Resources tab, sub-category “Education Resources” for a complete listing of all our state/education contracts.

solutions

solutions to streamline your procurement process and reduce waste

mscdirect.com

- **Fast & Convenient:** mscdirect.com is the industry's leading website and it's so easy to use that whoever handles your purchasing can be up and running in a matter of minutes. Simplify your procurement process and avoid wasted paperwork by ordering everything you need in one convenient place at any time of the day.
- **Total Account Management Online:** You can manage your entire MSC account online anytime you want. Save time with best-in-class features, including real-time inventory availability, customer-specific pricing, powerful search engine powered by Google, order tracking, account history, and you can even create your own customized reports.
- **Personal Lists:** Use the Personal Lists feature to create a bookmarked list of items for easy reorder or for future reference. Customize lists according to your needs and share them with others in your company. You can even upload a file of items to a personal list and add them to a shopping cart.
- **Express Checkout:** If you re-use the same billing, shipping and payment information for most of your orders, Express Checkout will help speed up your order process. This feature allows you to set default preferences that will be applied to all your Express Checkout orders...two clicks and you're done!
- **Workflow:** mscdirect.com allows you to maintain total control by enabling you to create and manage the various User Roles you need for all your departments.

e-Procurement

- e-Procurement integrated solutions provide rapid supplier enablement with MSC, ensuring you get the most out of your e-Procurement investment. We help streamline your procurement process by working with some of the most popular e-Procurement providers, such as SciQuest, eSchoolmall, Ariba®, Perfect Commerce, SAP and Oracle®, among others. Not only are our Inventory Management solutions designed to integrate with your e-Procurement platform, but we also support "PunchOut" and "RoundTrip" capability and hosted catalogs.

Contact your local MSC branch representative or go to the Customer Support section on mscdirect.com for additional information.

Inventory Replenishment Solutions

MSC will work with you to design a program that meets your specific procurement or replenishment needs!

Vendor Managed Inventory (VMI)*:

VMI is an on-site service for MSC customers who need to reduce time spent on the purchasing process – from purchasing to payables and everything in between.

How does it work? MSC will assign a VMI specialist to help you to identify, label and establish min./max. and reorder quantities. You maintain control by selecting the approval process that works best for you: fax, e-mail, shopping cart on mscdirect.com, e-Procurement or blanket PO. You will also be able to review and edit orders prior to placing them.

Customer Managed Inventory (CMI)*:

CMI is a simple, easy-to-use requisition tool for frequently ordered MSC Big Book products. CMI gives you the control and flexibility you need, and at the same time saves you money and eliminates unnecessary paperwork, time-consuming inventory scans and stock shortages/overages.

How does it work? MSC will help you to identify, label and establish min./max. and reorder quantities. After that, you decide what gets ordered, when and where. Just scan the bar code label, plug in your scanner and order. Your scan gets downloaded to a shopping cart on mscdirect.com. It's that simple – and that effective!

*Our VMI and CMI services are provided at no cost for pre-qualified customers. Call your local branch/sales representative at 800.645.7270 to find out if you qualify.
