

FALL PROTECTION TRAINING PROGRAM

Falls are among the most common causes of serious work-related injuries and deaths. Insufficient fall protection is on OSHA's list of top safety violations. Let us help keep you compliant.

As an employer, you must do everything you can to prevent employees from falling off overhead platforms, elevated workstations or into holes in the floor and walls. That means not only providing them with proper harnesses and fall protection, but also training them in proper safety procedures and equipment usage.

**OF ALL PREVENTABLE NONFATAL
INJURIES IN THE U.S. ARE
FALL-RELATED¹**

**880
DEATHS**

**DUE TO FALLS, SLIPS AND TRIPS
IN 2019²**
